

BetFury Casino Review

- USP1: Ability to buy, trade and stake numerous cryptocurrencies in-platform
- USP2: A one-stop shop for crypto enthusiasts
- List Description: BetFury has established itself as a prominent crypto and entertainment ecosystem, incorporating I-Gaming, crypto-earning capabilities, and sports betting. Over the course of five years, starting from 2019, the platform has been carefully constructed to provide a rewarding experience for all users, catering to those seeking to accumulate crypto assets or to have some fun with crypto gambling.

BetFury Casino Overview

BetFury is one of the best platforms out there, featuring unique Original games, diverse functionalities, and fantastic crypto partnerships. Over the last few years they developed a product that offers numerous functionalities and perks to satisfy even the most demanding crypto gamblers.

Launched in 2019 and licensed by Curaçao, BetFury has been doing a great job making their casino a comprehensive casino with all sorts of options. On top of the thousands of slot games they have available (upwards of 8 000!), they offer support for a number of cryptocurrencies as well as their own token, BFG.

We love many things about BetFury, so here are some highlights:

- Multiple features like cashback, rakeback and regular bonuses
- VIP system with ranks
- Exclusive games developed by themselves
- Safety and fairness in their offered games
- Multiple languages supported

In this review we're going to take a closer look at these elements, as well as mention the other perks offered by BetFury casino.

FAQ

1. Is BetFury Casino legit?

BetFury is regulated by Curaçao and operates with a proper and legit license to provide services for online games of chance. It was licensed by Gaming Services Provider N.V, License 365/JAZ, Sub-License GLH-OCCHKTW0712232020. They have a great reputation regarding their deposits and services.

2. Which countries is BetFury casino available in?

BetFury is available in most countries where betting is legal and they make sure to provide a list of most of the banned countries on their website. The list is quite long and if you are unsure of the status of where you reside, the easiest option is to visit BetFury and see if your country is found in the sign-up form.

3. What is the BetFury casino promo code?

The welcome bonus on BetFury does not require a promo code in order to be claimed. BetFury boasts a total welcome bonus of up to 590% + 225 Free Spins, spread over your first three deposits on the platform.

4. Does BetFury Casino have NFT integration?

At the time of writing this, BetFury offers NFT lootboxes. You choose a lootbox, then spin on their reward wheel. This will give you rewards that range from NFTs to Free Spins, Free Bets and even crypto rewards. Even though this is the extent of what BetFury is offering at the moment, they are hinting that more stuff revolving around NFTs is soon to come.

5. Does BetFury have an app?

The BetFury app is fast and reliable, providing users quick access to all the services, as well as instant updates through push notifications for those who opt in. It's not only available on Android and iOS, but also on desktop devices with Windows or MacOS to make sure that whatever device you have, you can have access to BetFury's latest features and updates.

Welcome Bonus on BetFury Casino

The **Welcome Bonus** on BetFury Casino is pretty decent, with a combo of bonuses for each of the first 3 deposits.

At the time of writing, you can get up to 150% bonus funds and 50 free spins on your first deposit, up to the equivalent of \$2500. The more you deposit, the higher the bonus you receive.

For the second deposit you can get up to 180% on funds + 75 Free Spins, while the third deposit can get you a bonus of up to 200%, depending on the amount of your deposit, plus an additional 100 Free spins. This welcome package adds up to a pretty sweet total bonus.

As for the wagering requirements, they vary depending on which of the three bonuses it is and what game you're playing. Take a close look at the Documentation section on BetFury casino - they have a pretty straightforward breakdown of what to expect with every type of bonus.

[screenshot of bonus]

100 Free Spins - Signup Bonus

New users can make good use of the 100 no deposit Free Spins Signup bonus. All new signups have 24 hours to activate and play the 100 free spins that they will be given in one or more games of the platform's choice. This is a pretty sweet deal since it doesn't require you to make a deposit to get the free spins and play them, but you do need to make a deposit later on to actually get your hands on any winnings.

Supported cryptocurrencies

BetFury offers support for a number of cryptocurrencies, tools and services related to crypto. They have the popular options, like BTC, ETH, BNB and TRX but also a number of lesser-known ones. You can also buy any of the supported cryptocurrencies directly from the BetFury platform, without having to visit a different site.

The BFG token

The BetFury platform has created their own, internal cryptocurrency called the BFG Token, which operates on the BSC Network and is audited by CertiK. It can be wagered on the platform for gambling or it can be traded with other currencies, either within the platform itself, using the Crypto Swap feature, or through other DEX services like Biswap and PancakeSwap.

There's many ways to get BFG tokens, some of which include placing and winning BFG bets, connecting the Telegram Bot to your account and take part in platform events like tournaments and battles.

A number of wallets support the BFG Token and holding BFG on BetFury can get you into the Staking pool. See the next section for more on this!

BFG Staking

This is a really interesting feature that centers around passive income. BetFury awards you winnings of up to 50% APY (Annual Percentage Yield) from the platform's profit, simply for keeping tokens in your BetFury account, as opposed to keeping them in a different wallet. This is easily accessible, as just 100 BFG tokens in the BetFury platform will make you eligible.

You can choose between Flexible and Fixed-Term Staking. For **Flexible Staking**, you can stake your crypto and make a profit off of it, without locking it - meaning, you can take it out whenever you want. For **Fixed-Term Staking**, you freeze your assets for a fixed period of time and at the end of that time you reap the rewards. In theory, the longer the freezing period, the higher the overall payout will be.

The Staking pool supports a number of different cryptos as well, which gives you flexibility in choosing which one you like the most.

Deposit process

The deposit process is very straightforward, simple and easy to complete. You can deposit funds directly from your Wallet, under the Deposit tab. Just choose the cryptocurrency you want to deposit and the network you want to use for this transaction. You Will then be given the deposit address to which to send the funds. You also have the option to choose whether you want to opt in or out of the bonus on this pop-up.

[Image 2]

According to their Terms and Conditions, there is no fee for deposits made to BetFury and there is no maximum deposit amount either.

Withdrawals

Your BetFury Wallet has an Address Book, in which you can link your wallets for easy access during the withdrawal process. Once you have added your addresses, you can proceed to take money out of your account.

You just need to go to Wallet and click the Withdraw tab. Then choose your cryptocurrency and the Network, enter the Address you want to send the tokens to and click Withdraw. Pretty simple, right?

[Image 3]

Usually BetFury withdrawals are processed quite quickly at the most within 24 hours. They do though give a disclaimer for those special cases where they may need to do investigations, saying that they may take a full week or even more - how much more is left unspecified.

There are different fees for withdrawing funds, depending on the cryptocurrency of your choice.

One thing that we are not a big fan of is the Maximum Win Limit. At the time of writing it sits at (the equivalent of) 300,000 USD and BetFury reserves the right to just not pay out any winnings above that amount, and they are quite firm on this.

Gamification on BetFury

BetFury offers regular and frequent challenges to keep their players entertained and engaging with the platform, using lots of gamification elements in a lot of places.

To start with, players have ranks - the more you play, the higher your rank, and the higher your rank, the better the perks you have. There are also daily tasks to complete, like the achievements that one typically finds on video games. Each task is tied to its own reward, and there are plenty of tasks to keep you busy.

In addition to all of this, they usually have several concurrent tournaments and battles running, where players compete against each other to win prizes.

Casino games

When it comes to the presentation of their casino games, BetFury does not disappoint. Players can filter the available slot games by features and mechanics like bonus buy and cascading symbols. You can also choose to look at games from specific providers, if that's something you prefer to look at.

In addition to this, they allow you to add games to your favorites from the lobby without having to actually open the game - a pretty convenient feature. Almost all games also have a free play option so you can test them out before making a commitment, which is a common feature but still pretty cool.

What we liked most of all is the fact that each game's RTP is clearly visible in the lobby, if you hover your cursor over its icon - you don't have to go digging all around the game's information menu to find this out.

Exclusive games

BetFury have a host of own-developed exclusive and original games. With an RTP of up to 99.02% and provably fair status, we were delighted to try them out. They lived up to our high expectations and more, as BetFury has gone above and beyond to help players get the most enjoyable experience possible with features like Live Game Charts, Auto Mode, Hotkeys and Fast Mode.

Sports and eSports betting

As a platform who prides itself on a variety of services and games, BetFury has made sure to include Sports and eSports betting under their Sports category.

You can bet on your favorite sports like soccer, baseball, basketball, ice hockey, tennis, both on live and future games, as well as on video games like Dota2 and Counter-Strike.

VIP Club

The BetFury VIP Club has a ton of perks for players who manage to get in. In order to do so, you have to reach Rank 10 and upon doing so, you gain access to great stuff like exclusive promotions, additional bonuses and unique events.

You also get increased cashback and better terms for withdrawals on monthly, weekly and rakeback bonuses, priority in withdrawals, increased Max Payout and Max Bet, as well as access to the exclusive VIP Community. You are also assigned a personal VIP Manager who can help with any questions you may have and provide guidance regarding platform features.

Great stuff all around!

Crypto Services

BetFury really took the idea of a one-stop shop to the max by offering a variety of crypto services. Although not entirely relevant with the gambling industry, the following features are available on BetFury and they are really interesting, so let's take a quick look at what extras you can expect to find.

Free Crypto Boxes

Once you reach Rank 2, you are eligible to withdraw from the Free Crypto Boxes that become available to you. Every few hours a new box becomes available for you to open.

Crypto Staking

Based on their own BFG Staking functionality, Crypto Staking is all about making passive income through the platform's own profit, with returns of up to 60% APR (Annual Percentage Rate), on the casino's own profit. Much like with BFG Staking, you can choose between Flexible and Fixed-Term Staking.

Crypto Loans

Crypto Loans are a financial service offered by BetFury, by which you can borrow one cryptocurrency for another, without having to trade it. The terms will vary depending on what cryptocurrency you're borrowing, and you can choose between ETH, USDT, BTC, BNB and TRX.

There's various ins and outs to this service, so make sure you read their terms and conditions with caution to ensure you have a good grasp of the service offered.

Crypto Swap

Through BetFury's Crypto Swap service you can exchange crypto. There are a number of supported cryptocurrencies, including BTC, ETH, USDT and BNB to mention a few. The process is fairly simple. You just go to your wallet, choose the currency you want to exchange from and to from the respective dropdowns and click *Swap*.

Rewards and features

BetFury is a quite generous casino when it comes to bonuses, with a number of things that every player can benefit from. Not only that, their bonuses are all gathered in one place so that you don't have to scour the platform looking for them.

To start, they offer a **Cashback bonus** of up to 25% at the time of writing, depending on your rank and the type of game, with casino games bringing in a higher cashback percentage compared to sport betting.

There is also a **Rakeback** bonus of up to 10% for every bet you make. The great thing about the Rakeback bonus is that it's available for everyone on the platform and it does not expire. You also have the option to double it by using the Rakeback Boost feature, which can be activated when claiming other bonuses. It's important to note that VIP users can activate it once a day whenever they want, without having to concern themselves with the other bonuses.

The **Weekly Bonus** is also available to all players on the BetFury platform and it is based on your *casino* game activity during the previous week, calculated from your wager and lost funds. Although it doesn't stack from week to week, the Weekly Bonus is a nice boon for regular users.

If you're more of a sports betting kind of person, fret not - BetFury has got you covered. They also offer the **Weekly Sports Bonus**, which awards you free bets for the following week if you complete the wagering requirements.

Finally, the **Monthly Bonus** is another option that's available to all players on the platform and is calculated from your deposited funds lost and your wager in specific categories during the previous month.

Telegram Integration

In March 2024, the **BetFury Bot** for **Telegram** was launched. On top of the regular functionalities of the bot, that include faster access to the platform through Telegram and regular updates, you can also earn hefty rewards for using it.

At the time of writing, you can multiply your Monthly Bonus by up to **x3** just by connecting the bot to your account.

Additionally, when you connect the bot, the regular Fury Wheel (a spin wheel with rewards, available to all players) becomes the **TG wheel**, offering boosted crypto rewards. Not a bad deal at all!

VIP Bonuses

BetFury also offers special VIP perks, like the **VIP Bounty Bonus**, which is calculated based on wagers and funds lost. This bonus never expires and it is fully credited to the balance - unlike most other bonuses which have a few restrictions on the bonus funds.

In addition to this, if you're a VIP member of the BetFury platform, you get a **Birthday Bonus**! Note that you do have to go through the KYC process to receive this, but it's still a nice gift to celebrate your birthday with.

Responsible Gambling

Despite all the steps that have been taken to make all about BetFury accessible at all times, they also have Responsible Gambling options on their website.

- Time alert: You can choose to set a time limit for your gaming. Choose an amount of time that you would like to play for. When you complete this, you will be notified that it's time to walk away.
- Self-exclusion: You can set an amount of time during which you will not be able to play. After the amount of time has passed, you will receive a notification and will be able to start playing again.

BetFury also features a whole section on Responsible Gambling in their Documentation section, with advice and useful links to resources in order to help you manage your gambling.

Vault

BetFury describes the Vault as an innovative tool that can help their players manage their funds better. With this tool they hope to promote responsible gambling, by allowing players to remove any funds from their game balance and lock them, making them

unavailable for playing, without having to leave the platform. Players can even opt to have their Vault balance visible alongside their Main Balance, so that they have a view of the bigger picture - even though the Vault balance cannot be used for playing.
